

Tobacco Free Pharmacies

Public Health
Prevent. Promote. Protect.

Grand Forks Public Health

- Retail density is linked to prevalence

Exposure to tobacco products at the POS encourages initiation and discourages cessation

- Tobacco product sales in pharmacies raise ethical questions

“pharmacists must be committed to the welfare of their patients and must act with honesty and integrity in professional relationships, avoid actions that compromise dedication to the best interests of their patients.”

- Tobacco free pharmacies support healthy lifestyles and the prevention of disease

14,000 kids now under 18 and alive in ND will ultimately die prematurely from smoking
